The Examiner's attention is directed to the references which are listed on the attached Forms PTO/SB/08A and PTO/SB/08B. Copies of non patent literature and non-U.S. patent references are enclosed.

An English abstract was not available for EP 0338429. Therefore, we have enclosed what is believed to be the English equivalent of the patent, U.S. 4,925,960.

Citation of these references is respectfully requested.

Each of the patents and patent applications identified below is assigned to the assignee of the present application. These patents and patent applications, as well as their files and the entire contents thereof (including prior art cited or mentioned therein), may be relevant to patentability and therefore are being brought to the Examiner's attention for consideration as part of this information disclosure statement. The patents and patent applications are grouped below by patent family (i.e., they share at least one common priority date).
